

You know what's going on. You have evidence. You know by now that you're not alone but how do you make it stop?

The Judge isn't following the law. The attorney needs to keep his job after your case so he lays low. The para-professionals are misstating facts on the record. Evidence is being ignored. You and/or your children are being harmed but no one will do anything? What now?

ANGELS! It's time to take it to the court of public opinion!!

Would you like to share your story with the press? If yes, then your ship has come in. This can be done anonymously if you want. Please [contact AngelGroup if you are interested in participating](#) in this world-changing opportunity. If you won't do it for yourself, do it for your friends, neighbors, children, brother and sisters. It's time to turn the tide.
